Rebound Electronics (UK) Limited

COUNTERFEIT STATEMENT

Rebound Electronics Limited recognises that counterfeit components pose a serious threat to the electronics industry and its end customers.
We have devised comprehensive internal procedures to ensure Counterfeit risks are mitigated and minimised.

When components cannot be obtained from traceable sources, Rebound Electronics Ltd will endeavour to use verified suppliers or take mitigation actions to minimise the risk of suspected or confirmed counterfeit from entering the market:

- Internal verifications
    - Visual Inspection performed based on IDEA-STD-1010-B.
    - Test equipment within UK and HK warehouses used for authentication checks to manufacturers data.
    - All products that enter the warehouse have full photographic traceability.
    - AS6081 certified in house testing in the UK and HK.
- External Testing
    - Test houses are reviewed and approved by the quality department.
    - Long standing relationships with test houses all over the world with testing capabilities to ISO17025, AS6171 and AS6081.

To verify vendor quality, we monitor the ongoing performance of all suppliers utilising a variety of criteria.

Our internal procedures include monitoring of counterfeit reports, quarantine and reporting of counterfeit parts to external sources where appropriate.

Rebound Electronics Ltd are a member of ERAI and utilise this information and database for both vendor management and component reporting.
