

**Rebound Electronics
(UK) Limited**

EU REACH Statement

The European Union (EU) has adopted regulation no.1907/2006, also known as the EU REACH (Registration, Evaluation and Authorization of Chemicals) regulation, which became effective in June 2007.

Under the terms of the REACH regulations, the electronic components that we distribute (primarily semiconductors, passive products, and electromechanical parts) are referred to as 'Articles' as defined in REACH.

Rebound Electronics Ltd. has verified this regulation to the best of its knowledge, and we believe none of the articles that we sell intentionally contain any of the Substances of Very High Concern (SVHC's) currently on the candidate list in concentrations of >0.1% by weight.

The latest list of SVHC (Known as the candidate list) can be found on the European Chemicals Agency website:

<https://echa.europa.eu/candidate-list-table>

Registration is required for companies that either produce or import into the EU any substance in volumes that exceed one tonne per substance.

Rebound Technology Group does not exceed this import amount and will therefore not be required to register.

If you have any specific concerns regarding the composition of a particular part, please do not hesitate to contact Rebound Electronics Ltd.
