# UK REACH Statement

With the withdrawal of the United Kingdom from the European Union and the end of the transition period on the 31st of December 2020, on the 1st of January 2021 the UK REACH Regulation came into force.

Legislation on the use of chemicals in the European Union (EU) was streamlined and improved on the 18th of December 2006. On that date, REACH legislation became law (Registration, Evaluation, Authorisation, and Restriction of Chemicals). The UK has implemented this EU Regulation almost as is in its own regulatory framework.

Rebound Electronics Ltd. has verified this regulation to the best of its knowledge, and we believe none of the articles that we sell intentionally contain any of the Substances of Very High Concern (SVHC's) currently on the candidate list in concentrations of >0.1% by weight.

According to REACH article 33 of UK-REACH we provide information to our customers on products knowingly containing Substances of Very High Concern (SVHC) over a limit of 0.1% by weight.

The latest list of SVHC (known as the candidate list) can be found on the HSE Gov website:
https://www.hse.gov.uk/reach/svhc-overview.htm

If you have any specific concerns regarding the composition of a particular part, please do not hesitate to contact Rebound Electronics Ltd.
