GOFORD

ABOUT US

INTRODUCTION

Since the foundation in 1995, Goford Semiconductor has quickly developed into a global company with offices in USA, Russia, Hong Kong, Australia, Shenzhen and Jiangsu.

Our foundation is based on R&D and relentlessly providing world-class pre- and post-sales support in the world of power MOSFET and discrete products.

Goford's core principles revolve around energy efficiency, fast mobility, and total reliability. This is backed up by our very strong technical and sales support team structures, with the only aim to be competitive in all quality, price and lead time delivery.

Currently our key products are widely adopted in various applications/industries of portable devices, led lighting, solar power, UPS inverter, battery management, motor control, auto industry, defense, and aviation.

QUALITY ACCREDITATIONS AND APPROVALS

Achieved ISO9001 Quality Control System Certificate, ISO14001 Environmental Management System Certificate, RoHS, REACH, Conflict Minerals and International Automotive management system IATF16949.

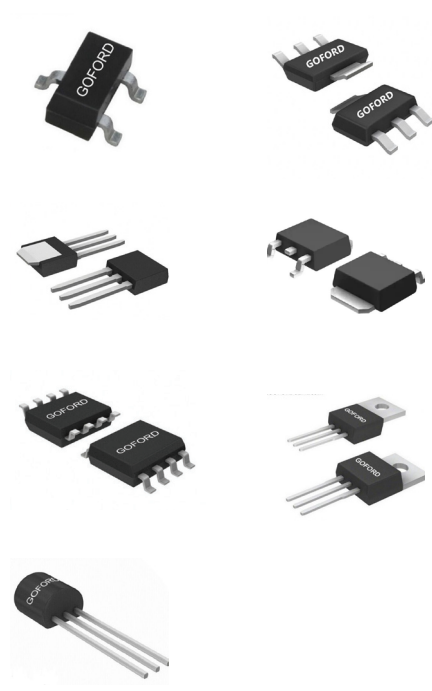

PRODUCT PORTFOLIOS

Trench Mosfet

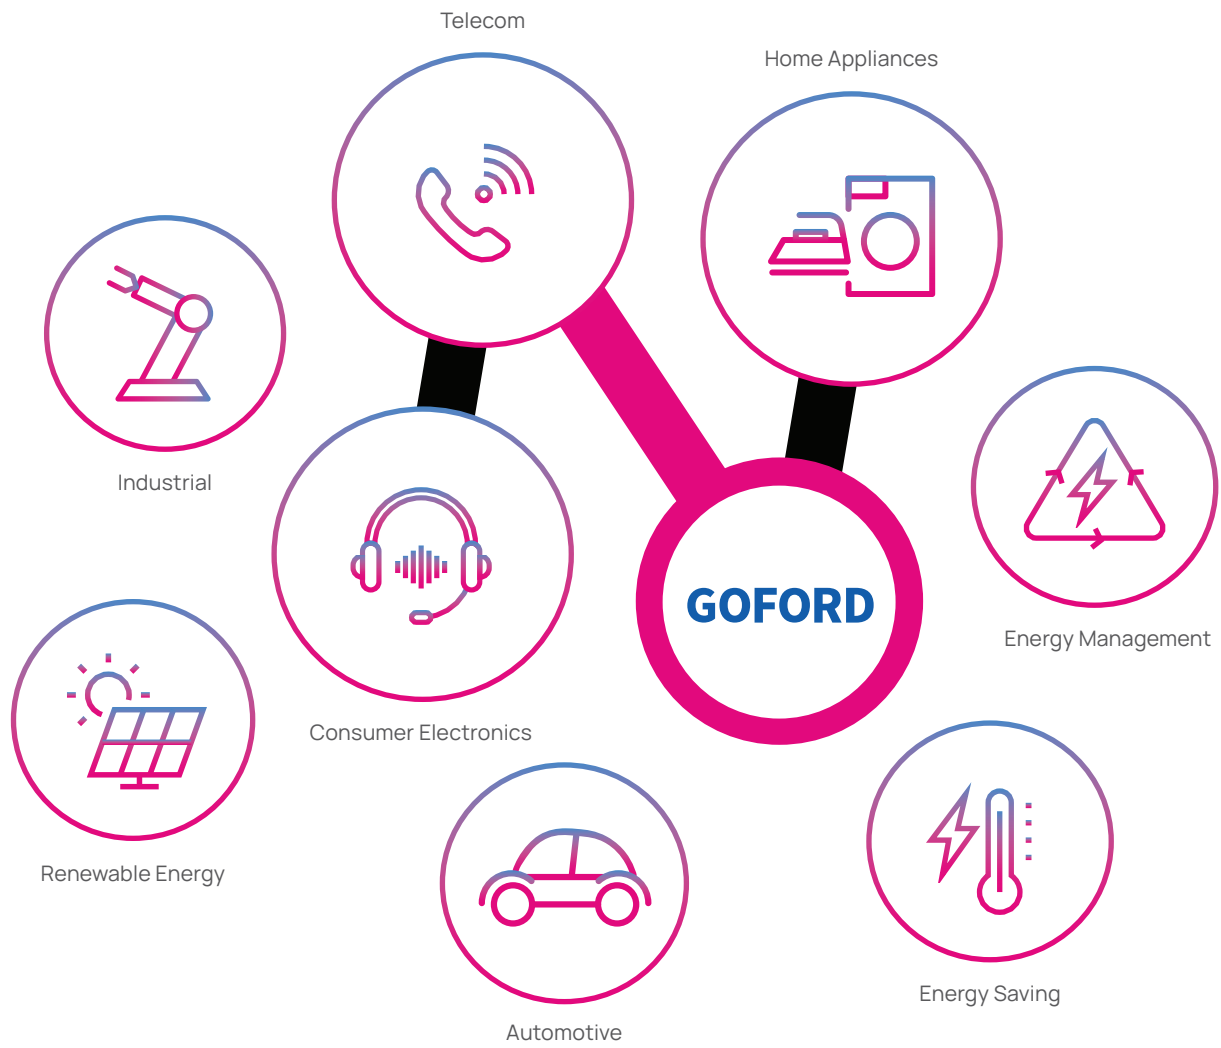

- $\leq 20V$
- 41V - 60V
