

FRANCHISE Line Card

Simplifying Electronic Component Sourcing From Design to Delivery

Nuvonix by Rebound drives to disrupt the electronic components industry by providing an alternative to the traditional supply chain model. Offering Design-led solutions with dedicated electronics and engineering support from globally emerging brands to fit your PCB supply chain needs.

De-risk Your
Supply Chain

Attractive Lead Times in
Standard and Allocated Markets

Price Competitive vs. Tier 1
Incumbents

Discrete (Semiconductor)

Diodes, Transistors, MOSFET, IGBT, Silicon Carbide SiC, LEDs, TVS

Semiconductor (IC products)

Linear, Converter, Interface, Power Management IC, Op-Amp, Comparator, Isolator, Driver, Optocoupler, Transceiver

Electromechanical

Relay, switch, fuse, fan

Passive

Inductor, Choke, Transformer, Capacitor, Crystals, Resistors, Potentiometer, Varistors, Thermistors, GDT

Capacitor

Electrolytic Capacitor, Film Capacitor, Ceramic Capacitor, Tantalum Capacitor, Polymer Capacitor, Supercap

Interconnect

Different connectors

Convenience & Flexibility

Our international offices and services exist to offer convenience and flexibility to our customers. We work with CEMs, ODMs and OEMs located around the world and with hugely variable requirements.

Our local offices with a single point of contact backed up by applications engineering, technical support, global supply chain, regional logistics and client servicing mean that we can offer you whatever you need, when you need it.

Smart Solutions, Smarter Supply with Nuvonix

Simplifying Electronic Component Sourcing From Design to Delivery

The Franchised distribution division within the Rebound Group work offering second source alternative manufacturers to aid customers in de-risking BOMs, lead-time reduction, and procurement material cost reduction, building a more resilient supply chain.
