

FRANCHISE LINE CARD

Nuvonix

Discrete (Semiconductor)

Diodes, Rectifier, Transistor, MOSFET, IGBT, Silicon Carbide, LED, TVS, OptoCoupler

Integrated Component (Semiconductor)

Linear, Converter, Interface, Power Management IC, Op-Amp, Comparator, Isolator, Driver, CAN, RS485, Sensor, Memory

Microcontroller/Wireless

BLE, Sub 1Ghz, 2.4Ghz, Wireless, LoRA, Transceiver, MCU

Electromechanical

Power & Signal Relay, Switch, PUSH Button, Knob, Fuse, Fan, Heat Sink, Power Supply

Passive

Inductor, Choke Coil, EMC, Transformer, Crystal, Resistor, Potentiometer, Varistor, Thermistor, GDT

Capacitor

Electrolytic, Film, Ceramic, Tantalum, Polymer, Hybrid, Supercap

Interconnect

Various Connectors

Price Competitive vs.
Tier 1 Incumbents

Attractive Lead Times
in Standard
and Allocated Markets

The Franchised division of Rebound Electronics, built to empower engineers and procurement teams with smarter sourcing, technical support, and global component access.

Nuvonix specialize in building resilient, long-term supply chains in partnership with trusted emerging semiconductor and electronics brands.

By engaging throughout your product design and development, we help ensure optimal part selection aligned with technical requirements in order to guarantee long-term pricing and availability solutions.

Together, Rebound and Nuvonix provide a comprehensive approach to component distribution, diversifying your AVL, reducing risk throughout the product lifecycle, and driving costs down.

Nuvonix helps businesses navigate supply chain complexity with agility and confidence. Whether you're solving obsolescence issues, qualifying new products, or accelerating time to market, Nuvonix is your partner from design to distribution.

Convenience & Flexibility

Our international offices and services exist to offer convenience and flexibility to our customers. We work with CEMs, ODMs and OEMs located around the world and with hugely variable requirements.

Our local offices with a single point of contact backed up by applications engineering, technical support, global supply chain, regional logistics and client servicing means that we can offer you whatever you need, when you need it.

Reliability & Integrity

The reliability and integrity of your products and component supply chain is paramount.

Nuvonix

Design In, Scale Up: The Nuvonix Way

Redefining Semiconductor Distribution

1 Technical Design Collaboration

Our technical Sales and FAE teams work closely with customers to understand their technical application needs and help identify suitable products.

- ✓ Design phase collaboration
- ✓ Fit, form, function alternatives
- ✓ Application-specific support

2 Global Component Partner Network

We connect customer with a focused network of reliable emerging component brands from across the globe.

- ✓ Direct relationships with manufacturers
- ✓ Tier-1 performance
- ✓ Competitive pricing

3 Coordinated Sourcing & AVL Design

Nuvonix supports customers through structured sourcing model, designed to manage lead time and supply continuity.

- ✓ Multi-path sourcing to mitigate risk
- ✓ Approved Vendor List (AVL) integration
- ✓ Real-time market insight for proactive planning

4 Manufacturer-Qualified Testing & Quality Assurance

Every component is backed by rigorous quality processes and validated by expert engineers.

- ✓ Compliance and Traceability
- ✓ Manufacturer product testing
- ✓ Engineering tech support

5 Global Distribution & Long-Term Support

We deliver global scale and resilient distribution to keep you supply chain moving.

- ✓ Samples and technical product resource
- ✓ Cost and process efficiency
- ✓ Alternatives for obsolescence management
